

The TigerTMS iLink solution is the central communication hub for all Hospitality applications and solutions.

It has become the Gold Standard for Hospitality Middleware, providing interface connectivity for leading Front Office PMS, Telephone Systems, IPTV, Guest Mobile BYOD, High Speed Internet and Guest Services Applications. Every part of your infrastructure can be linked together to enable a seamless flow of data and bring the Hotel together as one.

Our experienced development team can implement to your specification whether it's a modern JSON or REST API or proprietary protocols like a traditional PBX.

We also offer our default Hospitality API for different types of systems including PMS to develop messages to our specification.

Please review the current list of integrations available today on the following pages and visit www.tigertms.com for more information.

You can contact us at: sales@tigertms.com

RECENT INTEGRATIONS

TV SYSTEM

- BAZEPOR

PMS

- CLOUDBEDS
- QUOHOTEL
- UNIDATA
- GUESTPRO

UPCOMING INTEGRATIONS

PMS

- SABRE SYNXIS
- OPERA CLOUD
- TESIPRO - ULYSES

PBX

- TONGLI
- GOTO CONNECT

BMS

- TRUSTECH
- UNIFOCUS
